# Sexualidad

- Es un termino muy amplio, dinámico, que implica una construcción , propia, personal, del sexo y sus distintas manifestaciones, las mismas se ven influenciadas por factores biológicos, psicológicos y socio-culturales.

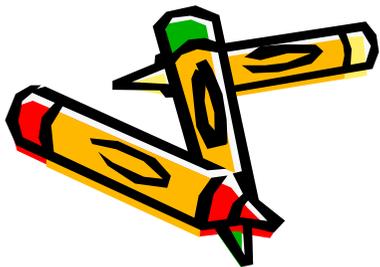

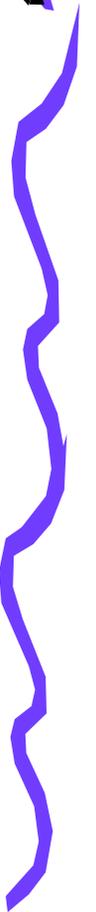

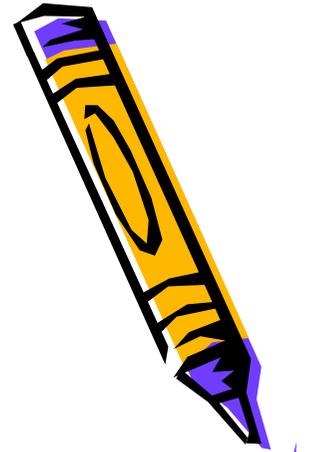

# GENITALIDAD

Implica lo relacionado con los órganos sexuales masculinos y femeninos. Se relaciona estrictamente con lo coital.

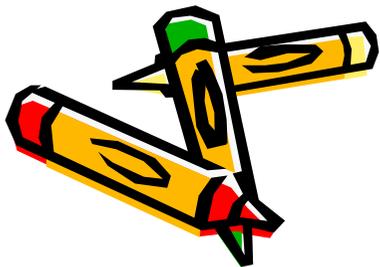

# MITOS Y CREENCIAS

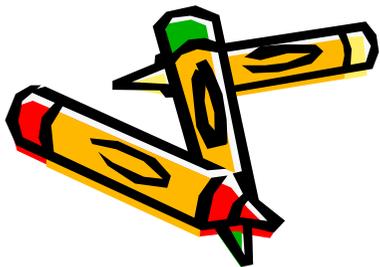

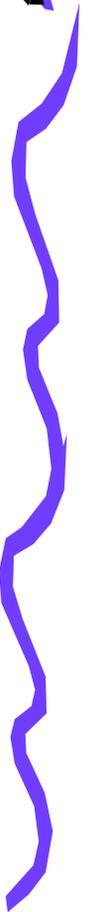

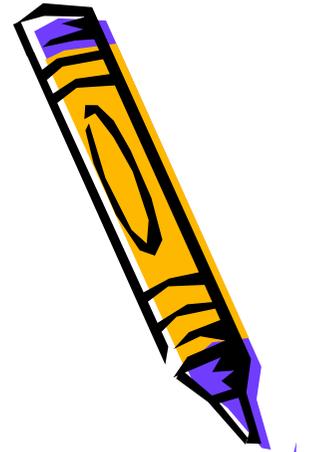

## Mito:

- Falsa afirmación convalidada pese a todo a través de años de certidumbre social.

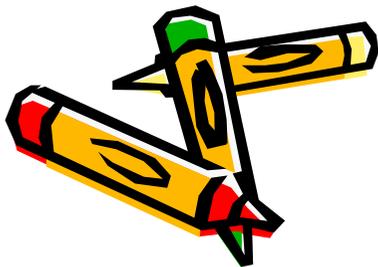

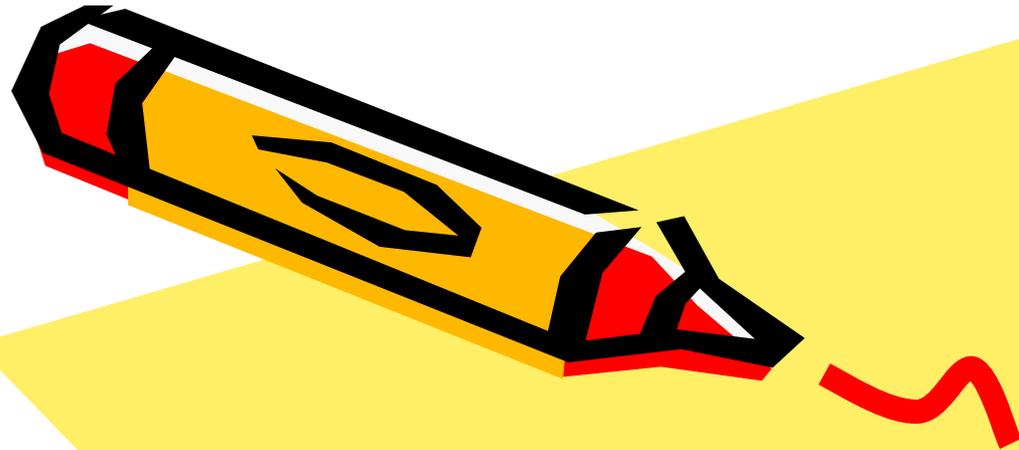

# Creencia:

- Es una afirmación personal que consideramos verdadera.
